I. Introduction

The World Health Organization (WHO) announced the 2019 Corona Virus Disease (COVID-19) as a global health crisis and the country was put into state of public health emergency in March 2020. The Local Government Unit and other concerned agencies immediately implemented measures to mitigate transmission of the disease.

Pursuant to the Inter-Agency Task Force on the Management of Emerging and Infectious Diseases (IATF) Omnibus Guidelines on the Implementation of Community Quarantine in the Philippines with its amendments, the CHED and the Department of Health (DOH) are jointly issuing a Memorandum Circular No. 2021-001. Additionally, this Joint Memorandum Circular (JMC) is cognizant of the mandates of Republic Act No. 11332 otherwise known as the "Mandatory Reporting of Notifiable Diseases and Health Events of Public Health Concern Act," wherein public health authorities are given the statutory and regulatory authority to mandate response activities on the part of schools, which can include the regulation of physical classes, to control the further spread of infection, outbreaks, or epidemics and prevent re-occurrence.

Thus, during the Corona Virus Disease (COVID-19) pandemic, all USL employees are enjoined to cooperate in taking steps to reduce the transmission of communicable diseases in the workplace. It is our first and foremost intent to maintain a safe workplace and adopt practices protecting the health of employees, students, clients, visitors or other stakeholders. Moreover, everyone is enjoined to be conscious of our mutual need with the University to ensure the continuity of business operations and delivery of quality services during this pandemic.

II. Coverage

This guideline is applied to all employees (including outsourced janitorial and security personnel), students and visitors of the University entering the premises of the University.

III. Objective

Health is one's personal responsibility, with or without pandemic. The requirement for basic health protocols as precautionary measures is first and foremost a personal necessity.

Exposure to probable or confirmed COVID-19 positive cases can inevitably happen in the school premises, but the school cannot be faulted since health protocols are in place and are monitored and advisories are regularly promulgated to ensure everyone's safety and to address concerns pertinent to COVID 19 prevention and control.

Thus, **this USL COVID-19 PREVENTION AND CONTROL POLICY** is issued for reference and compliance of all employees, students and other stakeholders. This policy is aimed to prevent and/or control the spread of the COVID-19 in the University. It includes measures to maintain safe workplace and implements sound practices to protect the health of its employees, students and guests/visitors.

It likewise sets the policies and guidelines pertinent to sound operations and management of the University during the pandemic.

IV. Guidelines

A. Screening at the Entry Points to USL Campus

USL Employees (including outsourced personnel such as Janitorial Crew and Security Guards), students and visitors entering the University must:

1. Wear their face mask and face shield properly at all times. The "No Face mask, No Face shield-No Entry, No Transaction" policy shall be strictly applied in all offices and in classrooms;
2. Have the mandatory temperature checks at the gates of the University prior entry to the campus; and have it recorded in the Health Declaration Form (HDF);
3. Accomplish completely and truthfully the provided Health Declaration Form (HDF) in writing or in google docs. HDF for employees is provided every office to avoid crowding at the gate. They are encouraged to use their own pens;
4. Security Personnel shall ensure there are no choke points at all entrance gates of their campuses. Strict use of separate entrances and exits must be observed;
5. Strictly observed Physical distancing at all times. Visual cues are provided as guides to physical distancing;
6. Wash or sanitize hands before or immediately after entry in an office or classroom. Adequate number of handwashing or hand sanitizing stations are at the entrance gate and other strategic locations in the campus, offices or classrooms.

B. Entry Restrictions

The following may not be allowed to enter the USL premises:

1. Individuals who refused to fill up the HDF nor let their temperatures be checked;
2. Individual with a temperature of 37.5 degrees and/or above, even after a five-minute rest.

The individual may temporarily be placed in the isolation room reserved at the nearest University Wellness Center until he/she is transported to his/her home or health facility. Clinic will refer employee to nearest Barangay Health Emergency Response Team (BHERT) and/or City Contact Tracing Team.

An employee or a visitor who has personal knowledge of exposure with a probable or confirmed COVID positive case, and has undergone swab testing, or is waiting for swab test result, or is contact-traced for swab testing, is strongly appealed upon not to report for work nor enter the campus for any business transaction, but to immediately observe self-isolation at home. Employee should inform his/her condition to the Head of office or the VP for Administration.

3. Individuals who fall within the restricted age range for mobility as mandated by the IATF or City Government. Students of minor age (below 18 years old and adults 65 years old and above);
4. Students of allowable age but without google appointment form. In case of allowed limited face-to-face classes, written informed consent from the parent or guardian allowing the student to attend shall be required;
5. Individual with a recent travel history (within the last 14 days) on areas with high COVID-19 cases within and outside the province of Cagayan. Entry may be considered, subject to presentation of the following to the University Wellness Center for clearance:
    a. Travel Authority from their place of origin; and
    b. RT-PCR swab or Rapid Antigen test results (if required).
6. Individuals who originated from local areas under lockdown or zonal containment;
7. Individuals who are classified as Most-At-Risk Population (MARP)-seniors/elderly, pregnant women, young children, immunocompromised and those with uncontrolled comorbidities or underlying health conditions such as, but not limited to, diabetes, lung and heart disease.

Employees who belong to this category shall present a recent Medical Certification of Fitness to Work to the Office of the VP for Administration prior reporting for work.

8. Ambulant vendors, product advertisers, delivery crews (on-line buying deliveries) are not allowed entry for their respective purposes. Employees are advised to address their on-line transactions in their respective home addresses.

C. In-Campus Gatherings/Events/Meetings

All in-campus events and gatherings shall follow the guidelines issued by the local and national government, and other pertinent government agencies as to number of people allowed, duration of event, etc.

1. Approval of Administration will be sought for the conduct of any scheduled school-related event to be held inside or outside USL.
2. Large group meetings or gatherings will not be allowed. Avoid gatherings of 10+ people; and when meeting, keep a 6-foot/1.5- meter distance between people.
3. Meetings will be via online or via conference call whenever possible. On-line meetings via Zoom, or other digital platforms are strongly encouraged.
4. Strict observance at all times of basic health protocols such as use of face mask and face shield, frequent hand sanitizing and social/physical distancing during any approved event.
5. During meetings or approved gathering, serving buffet meals during the pandemic is strictly not allowed. Only individually packed meals/snacks are allowed to be served.
6. Employees (and students, in case of face-to-face classes) are enjoined to refrain from having group snacks or meal time together.
7. Disinfection of the venue after every event shall be coordinated with the PPMDO and OSH Officer.

D. Health and Safety Protocols

USL employees, students, and visitors shall, at least, be knowledgeable of basic health protocols.

1. Hand Hygiene

Use an alcohol-based hand sanitizer or 70% isopropyl alcohol if soap and water are not immediately available. Regular and frequent hand washing for at least 20 seconds with soap and water should be done:

a. before eating;
b. after sneezing, coughing, or nose blowing;
c. after using the restroom;
d. before handling food;
e. before and after using the intercom;
f. after touching or cleaning surfaces that may be contaminated;
g. after using shared equipment like computer keyboards and mouse;
h. after using the ATM machine; and
i. if hands are dirty

2. Physical Distancing

a. Avoid crowded places;
b. Maintain at least two- (2) meter distance or six (6) feet distance from other people;
c. Use table shields when transacting with clients. This is imposed on those who have frequent contacts with visitors from outside of the University;
d. Implement “window transactions” in offices as much as possible;
e. Office desk barriers may be used when deemed necessary. As much as possible, interpersonal interactions or face-to-face transactions should be limited to less than 10 minutes to minimize exposure. The use of phones, emails, and other forms of electronic transactions are encouraged;
f. Avoid travelling to high-risk place/ places with a high number of confirmed cases of COVID-19.

3. Personal Protective Equipment (PPE)

   The following must be used by employees reporting for work in the campus AT ALL TIMES:

   a. Standard disposable face mask or cloth mask
   b. Face shield
   c. Plastic barrier – for those serving a high number of clients

Heads of Offices should post in office entrance and strictly impose "No Facemask, No Face-shield-No Entry, No Transaction" Policy in offices.

4. Cleaning and Disinfecting Work Areas

   Corona Virus may remain viable for hours to days on surfaces made from a variety of materials. Cleaning of visibly dirty surfaces followed by disinfection is a best practice measure for prevention of COVID -19 and other viral respiratory illnesses.

   a. Office disinfection of routine areas such as (tables, computer units, keyboards, tables, counters, intercoms, and other surfaces) is under the care of the office's occupants.
   b. All employees must clean and disinfect their work areas regularly upon entry in the morning or afternoon and before leaving the office in the afternoon and after face-to-face long transaction with clients.
   c. Faculty members and students assigned in a classroom are enjoined to do routine cleaning of their respective working tables and/or chairs before and after use.
   d. Faculty members, students and facility in-charge (laboratory, library in-charge are tasked to do routine cleaning or disinfection of the working areas and/or apparatus before and after use.
   e. The staff of the PPMDO shall perform daily disinfection of offices, classrooms, laboratories, libraries, chapel and other facilities in use, including halls and corridors and comfort rooms.
   f. Offices with reported staff exposed to COVID positive case or under contact trace shall be on temporary closure and be required immediate disinfection. The memo shall be issued by the Office of the VP for Administration upon Clinic and OSH officer's assessment.

g. With the supervision of the Occupational Safety and Health Officer, the Physical Plant Management and Development Office Director, in coordination with the head of office, will arrange immediately the disinfection activity.

5. Meal Breaks
   a. During meal breaks on workday or class days, employees and students are discouraged from leaving the premises during this time to avoid exposure outside; hence, everyone is encouraged to bring their own food (in the absence of canteen operation in the campus);
   b. Taking meals or snacks in group is strictly not allowed. Employees must eat at their own tables or cubicles. The office or department can also devise a system of alternate meal times.
   c. Students must eat at their designated classrooms or meal areas.
   d. Masks must be worn immediately after eating.
   e. Food delivery is discouraged. Where it is unavoidable, delivery personnel must be met at the gates just before the electronic barriers. Disinfection of containers must be observed.

6. Classrooms/ Laboratories/Libraries
   a. Students are required to go straight to their assigned rooms upon entering the campus. if students arrive early and rooms are still occupied, they shall be directed to go to the study hall/ communal area where physical distancing shall be strictly observed.
   b. Students shall not be allowed to loiter.
   c. Students shall be assigned seats for throughout the semester.
   d. Students shall always wear their face mask and face shield inside the classrooms/ laboratories/Libraries, unless the government, through the IATF or LGU concerned relaxes this requirement.
   e. Faculty and students are enjoined to abide by the markings for traffic flow and the directions and proper distancing to follow from the entrance gate to the room and within the room.

7. Leaving the Campus
    a. Faculty, staff and students shall leave the campus immediately after their classes or work.
    b. Everyone is enjoined to follow the designated exit routes and exit gates.
    c. Personnel shall be assigned to monitor proper entry and exit movements and to control traffic. Moreover, the University coordinates with LGU for crowd management outside the school premises.

E. Medical / Health Consultation

1. **Annual Physical Examination (APE) for Employees**
   The Annual Physical Examination for Employees is still required most especially at this time of increased health risk. All employees who will undergo the medical and laboratory procedures required for the APE shall sign an informed consent form. The accredited service provider and schedule are put on hold due to rise of COVID cases in the City.

2. **Online Psychosocial Consultation**
   USL recognizes that mental health is an important aspect of overall well-being. Hence, the USL Guidance Center is offering online consultation on mental health concerns for both employees and students thru their Wellness Assistance and Guidance Initiative (WAGI) Program.

3. **The University Wellness Center (Clinic)**
   The clinic is open for online & face-to-face consultation. For any sign & symptom seen during the health examination, the health staff shall do necessary assessment and assistance.

4. **Medical Requirements for Internship or Related Learning Experience (RLE).** Medical examinations and certification of student's fitness are required per specification of accommodating institutions.

F. Case Management

This section outlines the key steps of isolation, contact tracing, including contact identification, listing and follow-up, in the context of the COVID -19 response.

A. Definition of Terms:

1. **Active Case**
   This refers to an individual who is tested RT-PCR SWAB positive; either symptomatic or asymptomatic, not yet clinically recovered and has not yet completed the 14 days isolation period after onset or clinical recovery as prescribed by DOH.

2. **Close Contact**
   A person who has experienced any one of the following exposures 2 days and 14 days after the onset of symptoms of a probable or confirmed case (per WHO Public Health Surveillance for COVID-19):
   i. Face-to-face contact with a probable or confirmed case within 1 -meter and for at least 15 minutes
   ii. Direct physical contact with a probable or confirmed COVID -19 case without using recommended personal protective equipment,
   iii. Member of same household with a probable or confirmed COVID -19 case
   iv. Travelling in a small vehicle, like a car, with an infected person.
   v. Other situations as indicated by local risks assessments

3. **General Contact**
   Individuals who may have been exposed to a confirmed case (such as those who were in the same event, social gathering, or venue as the confirmed case) but did not fulfill the case definition of a close contact (e.g. were beyond one meter distance from the confirmed case or did not have prolonged interaction or direct contact with the confirmed case.)

4. **Confirmed Case**
   A person with laboratory confirmation of COVID -19 infection, irrespective of clinical signs and symptoms.

5. **Contact Tracing**
   The identification, listing, assessment, and monitoring of persons who may have come into close contact with a confirmed COVID -19 case. Contact tracing is an important component in containing outbreaks of infectious diseases.

6. **Disinfection**
   The process of reducing the number of viable microorganisms on a surface to a less harmful level. It involves use of chemicals including but not limited to a bleach solution, and is more effective if done after cleaning.

7. **Isolation**
   The separation of ill or infected persons from others to prevent the spread of infection or contamination. Isolated individuals need medical attention and monitoring by medical personnel.

8. **Probable Case**
   A patient who meets the clinical criteria above and is a contact of a probable or confirmed case, or epidemiologically linked to a cluster of cases which has had at least one confirmed case identified within that cluster.

9. **Quarantine**
   The restriction of movement, or separation from the rest of the population, of healthy persons who may have been exposed to the virus, with the objective of monitoring their symptoms and ensuring early detection of cases.

10. **Recovered**
    i. For Symptomatic----an active case who has clinically recovered; and has completed at least 14 days of isolation; and has been discharged and tagged as recovered with repeat RT-PCR swab test and with clearance from a licensed medical doctor.
    ii. For Asymptomatic—one who was released from quarantine after 14 days as long as patient remains asymptomatic for the entire duration of the quarantine. There is a repeat RT-PCR swab testing prior to discharge and tagging as recovered.

11. **Suspect Case**
    A person who meets the clinical and epidemiologic criteria:

    Clinical criteria:

    i. Acute onset of any three or more of the following signs or symptoms: fever, cough, general weakness, fatigue, headache, myalgia, sore throat, loss of smell, loss of taste, anorexia/nausea/vomiting, diarrhea, altered mental status; or
    ii. Patient with severe acute respiratory illness (SARI) - acute respiratory infection with history of fever or measured fever >38 ◦C, and cough with onset within the last 10 days and who requires hospitalization.

    Epidemiologic criteria:

    i. Residing or working in an area with high risk of transmission of the virus, any time within the 14 days prior to symptom onset; or
    ii. Residing in or travel to an area with community transmission anytime within the 14 days prior to symptom onset; or
    iii. Working in health settings, including within health facilities and within households, anytime within the 14 days prior to symptom onset.

B. Contact Identification and Listing

Contact traced while at home:

a. The employee concerned should not report to work but shall immediately inform the direct Head of Office The direct Head of Office shall immediately inform the Office of the VP for Administration and the University Wellness Center.
b. University Nurse will contact the employee or student concerned for the accomplishment of COVID 19 Incident Report Form for further assessment and advice.

Contact traced while in Campus:

a. Inform immediately the Dean/Principal/Head of Office concerned. The Dean/Principal/Head of Office shall immediately inform the VP for Administration.
b. Report to the University Wellness Center for assessment and accomplish the COVID-19 Incident Report Form.
c. University Wellness Center will interview employee/student on possible contact within USL for symptom monitoring and other precautionary measures such as the need for quarantine.
d. The employee or student or visitor may temporarily be placed in isolation at the reserved isolation room at the nearest clinic in the University until he/she is transported to his/her home or health facility.

C. Suspension of Work for Office Disinfection after Contact Tracing

Upon recommendation of University Wellness Center to the Office of the VP for Administration, and upon approval of the University President:

a. Office of contact-traced or notified employee will be temporary closed for disinfection.
b. OSH Officer and PPMDO will close affected areas/ offices. Disinfection of the work area/ unit/ office will be done within a 24-hour period, following infection control and precautionary measures required. Employees occupying the office will be on

official leave and/or work-from-home assignment during the disinfection activity.

c. Mandatory Leave of staff with direct exposure to the contact-traced or notified employee will be advised if exposure is within the criteria for "close contact'.

> Again, it is to the best interest of the employee to recall with certainty and honesty if he/she is in full compliance of basic health protocols during his exposure with the probable or confirmed COVID-19 positive person.

D. Contact follow up

All USL employees who are contact-traced or on quarantine will be monitored by the University Wellness Center. They must keep lines open for communication and they are required to update the Office of the VP for Administration and/or through their direct head of office of the progress of their case.

G. Key Actions for Management of Contacts

1. **Close Contact**

The person's exposure to a suspected or confirmed COVID 19 positive case is considered a close contact if within the following criteria:

- ✓ Face-to-face contact with a probable or confirmed case within 1 -meter and for at least 15 minutes
- ✓ Direct physical contact with a probable or confirmed COVID -19 case without using recommended personal protective equipment,
- ✓ Member of same household with a probable or confirmed COVID -19 case
- ✓ Travelling in a small vehicle, like a car, with an infected person.

a. If contact traced while at home, employee or student must no longer report to school but must inform immediately about his/her condition to Academic Dean or Head of Office and to the VP for Administration.

b. If contact traced in campus, proceed to the clinic and be temporarily be placed in the isolation room until he/she is transported to his/her home or health facility. Clinic will refer employee to nearest Barangay Health Emergency Response Team (BHERT) and/or City Contact Tracing Team
c. have RT-PCR swab test taken, either as a personal initiative and expense (for peace of mind and of family) or as directed by the City Contract Tracing Team
d. Isolate for 14 days, regardless of result of swab test or till further cleared by attending Pulmonologist.
e. do daily self-monitoring for COVID-19 symptoms and temperature
f. ensure that she/he can be contacted anytime by the public health authorities/contact tracing team and by USL-Occupational Health and Safety Team.

2. **General Contact**
The person's exposure with a general contact is subject to assessment of University Wellness Center for advice.

H. Return to Work

1. **Recovered patient or medically cleared contact -traced employee/student.** Permission to report for work/class is required from the Office of the VP for Administration. The following certificates are required before being allowed back to work or before proceeding to his/her workplace. The employee/student should report to the University Wellness Center for assessment. Present the following requirements:
   a. Certificate of RT -PCR swab test-Negative Result
   b. If hospitalized, clearance from the attending Infectious Disease Specialist or Pulmonologist
   c. If home quarantined or in home isolation, clearance from Municipal Health Office/City Health Office

Heads of Offices concerned are enjoined to require from the returning employee the Permit to Report for Work issued by the Office of the VP for Administration.

2. **Employees coming from areas under ECQ or zonal containment.**
   a. Employees coming from these areas should strictly comply with the authorities and refrain from going out unless deemed essential as allowed by the Barangay Health Emergency Response Team (BHERT).
   b. Furthermore, the employee must ensure that s/he has no direct or indirect contact with the Confirmed case or with Suspected and Probable cases being contact traced.
   c. Filed leave to be considered for Authorized Leave with pay is to be supported with attached i) copy of the Executive Order declaring the lockdown or self-containment of the area of residence of the employee and ii) Barangay Health Emergency Response Team (BHERT) Certification of the employee's compliance with the containment directive.
   d. If with approved WFH arrangement for a non-Teaching Personnel, submit Work-from-Home report duly endorsed by the head of office.
   e. For faculty members- continuity of on-line classes must be ensured, and log in/out via LMS attendance shall be checked.

Compliance with Work-from-Home during paid leaves shall be charged to cooperation in the employee's performance evaluation.

3. **Employees returning to work after travel.**
   Returning employees after travel within 24 hours in high-risk places are advised to report to the University Wellness Center for assessment prior proceeding to office for return to work.

I. Travel

As a general rule, travels outside the City should be kept at a minimum until the pandemic conditions change to ensure the health and safety of the home/family and the Louisian community.

1. Official travels by officers and staff of the University should be deemed essential before being approved by the VP for Administration or the University President as the case may be. Travelers must secure the necessary documents as required by the latest advisory from the local government of Tuguegarao City and the place of destination or other concerned agencies;
2. Every employee should inform the head of office of any personal travel schedules. Employees who will go on personal travels must file for personal leave before the travel schedule and must honestly declare to the head of office such travel as purpose of the leave.
3. Refer to the Guidelines on Return to Work in this policy before reporting back to work from travel.

J. Leaves, Alternative Work, Make-Up Schedules

1. **Filing of Leaves**

   Incurred absences for hospitalization, home isolation, or quarantine shall be filed as authorized leave, charged to Vacation Leave and/or Sick Leave, excess absences will be charged to salary deduction.

2. **Work-from-Home (WFH)**

   If applicable, Alternative Work Schemes or output-based Work-from-Home, may be arranged, subject to endorsement of head of office and approval of the Supervising Vice President. Payment or offsetting of incurred absences will be reported upon submission of WFH expected outputs.

   During lockdown or when area is in zonal containment, NTP will be assigned WFH by heads of offices, as applicable. WFH outputs will also be charged to cooperation for performance evaluation.

3. **Faculty Classes**
   Classes will be in place; hence, faculty attendance will be checked via log in/out records in their LMS, except if pronounced by Local Executives as suspended.
   Faculty on isolation or quarantine may hold classes via LMS if capable. Otherwise, the faculty must inform Principal/Academic Head of absence and may be allowed make up class subject to existing procedure for conduct of make-up classes.

4. **WFH/Make-up, Offsetting done without prior approval will not be credited.**

K. Payroll During Suspension of Classes and Office Works

1. Payment of salaries for regular and full-time employees is in place during ECQ or in area or zonal containment mandated by the IATF or Local Government unit. Continuity of classes is ensured in all modalities, unless otherwise classes and/or work shall be suspended or cancelled as pronounced by the City or Provincial Government.
2. No Work-No Pay policy applies to probationary, contractual non-teaching personnel. Work-from-Home or alternative work schemes may be arranged with Head of Office, subject to endorsement of Supervising Vice President. Report on outputs for WFH will be submitted to HRMDO for payroll purposes.
3. In compliance with IATF protocols, employees with comorbidity, or are with immunocompromised illness, including pregnant women and lactating mothers are required to submit Certification of Fitness to Work. Otherwise, they will be allowed to maximize the use of leave credits or to file for personal leave.

L. Employee Assistance Program

The University shall put in place a social support system for its employees.

1. These include the provision of employee counseling and psycho-social crisis management

2. Physical wellness program, health and medical advisories, medical consultation
3. Flexible work arrangements such as work- from -home if applicable, off-setting or make-up schedules, as may be applicable and approved.
4. Additional three (3)- day with pay, if all leave credits have been consumed, for recuperation period, if hospitalized.

M. Collection, Filing and Disposal of Data

The collection of data is done as part of the COVID-19 prevention and control as mandated by the government. Thus, everyone who conducts transactions within any of the university premises shall fill in the: (1) Health Declaration Form, (2) Client / Visitor Logbook

1. Health Declaration Form (HDF)

a. Personal data (such as name, age, address and contact details), pertinent information and medical history in relation to COVID-19 will be collected through paper-based or online Health Declaration Form;
a. The Health Declaration Form should be accurate and legible. All required fields must be filled out. Upon reasonable belief that the information provided is inaccurate, the OSH can verify from the concerned client; and
b. The individual's signature means that s/he abides by the provisions of the Republic Act No. 11332, otherwise known as the "Law on Reporting of Communicable Disease".

2. Client/Visitor's Log Book

All units / offices / buildings are required to maintain a daily log of their clients or visitors to collect information on the names, addresses, contact numbers and purpose of visits.

3. Safety and Security Data

USL ensures the observance of the pertinent policies of the Data Privacy Act with regards to the access, storage, and disposal of data related to the prevention, control and management of COVID-19 in the University

a. Only the head of office, the University Wellness Center, the OSH Officer and the University Administration shall have access to information in the HDF and the logbook for purposes of facilitating contract tracing efforts in the University;
b. All accomplished forms are kept physically segregated and transmitted to the authorized personnel/unit within the establishment for appropriate action and storage at the end of the day or as may be prescribed by the internal policies on the matter. The transmittal of the forms shall be done in such a way that the confidentiality, integrity, and availability of the data is preserved;
c. All personal data collected for the purpose of contact tracing shall be retained only for the period allowed by existing government issuances. The DTI -DOLE JMC provides that personal data collected through the health declaration form or the visitor contact tracing form shall be stored only for a limited period and shall be disposed properly after thirty (30) days from date of accomplishment *(DTI-DOLE JMC No. 20-04-A);* and
d. The Health Declaration Forms containing personal data shall be disposed in a secure manner after the required retention period stated above. Paper records must be shredded properly while storage media of the digital devices must be electronically wiped, including back up data, to ensure that stored personal data are beyond recovery (*NPC Guidelines for Workplaces and Establishments Processing Personal Data for Covid-19 Response National Privacy Commission Advisory No. 2020-03)*

N. Work Arrangements

ECQ (Enhanced Community Quarantine)	**MECQ (Modified Enhanced Community Quarantine)**	**GCQ (General Community Quarantine)**	**MGCQ (Modified General Community Quarantine)**
Suspension of Work is subject to the LGU or City-IATF pronouncements through officially published Executive Orders	Works shall be with a skeleton workforce 21/2 days week work schedule, to ensure only 50% of University manpower report for work. MTW a.m // Wp.m.ThF @ 8:30-12:00 a.m.//1:00-4:00 p.m. Those not reporting will do output-based Work-from-Home tasks	Works shall be with a skeleton workforce MTW a.m // Wp.m.ThF @ 8:30-12:00 a.m.//1:00-4:00 p.m. Those not reporting will do output-based Work-from-Home tasks	Works and offices are in full operational capacity. M-F, 8:00-12:00; 1;30-4:00 work schedules

O. Employees' Code of Discipline

1. Concealment or Failure of employee to disclose his/her exposure to any COVID 19 probable or confirmed case while reporting for work is an Offense against Offenses against General Safety, Public Order and Public Health, #7: Deliberate withholding of information about one's serious health condition, or having contagious disease which may endanger health of employees, and/or students.

2. Repeated violation or utter disregards of the health protocols against COVID-19, Reporting for work without complying with the clearance requirements and obtaining permission to work is offense against Respect for Authorities and Just Orders, #3. Disobedience or Insubordination to lawful orders.

P. USL Campus Health and Safety Team (USL-CHST)

The USL-CHST is organized to serve as the main body to function for the following:

1. Disseminate appropriate and relevant information to stakeholders;
2. Oversee the implementation of health and safety protocols;
3. Monitor and evaluate the compliance of COVID 19 Prevention and Control Policy and Protocols; and
4. Take the appropriate measures when risks and impacts of COVID-19 may exist in the campus or surrounding communities, e.g., presence of suspected and confirmed cases have been reported.
5. Oversee the implementation of CHED-DOH Joint Memorandum for the Guidelines in the opening of Face-to-Face classes.

Oratio Imperata

REVISED (January 2021)

Merciful and compassionate Father,
we come to you in our need
to seek your protection against the COVID 19 virus
that has disturbed and even claimed lives.

We ask you now to look upon us with love
and by your healing hand,
dispel the fear of sickness and death,
restore our hope, and strengthen our faith.

We pray that you guide the people
tasked to find cures for this disease
and to stem its transmission.
We thank you for the vaccines developed
made possible by your guiding hands.
Bless our efforts to use these vaccines
to end the pandemic in our country.

We pray for our health workers
that they may minister to the sick
with competence and compassion.
strength in their commitment,
protection from the disease.

We pray for those afflicted.
May they be restored to health.
Protect those who care for them.
Grant eternal rest to those who have died.

Give us the grace in these trying times
to work for the good of all
and to help those in need.
May our concern and compassion for each other
see us through this crisis
and lead us to conversion and holiness.

Grant all these through our Lord Jesus Christ your Son
who lives and reigns with you, in the unity of the Holy Spirit,
God forever and ever. Amen.

We fly to Your protection, O Holy Mother of God.
Do not despise our petition in our necessities,
but deliver us always from all dangers,
O glorious and blessed Virgin. Amen.

Our Lady, health of the sick, pray for us.
St. Joseph, pray for us.
St. Raphael the Archangel, pray for us.
San Roque, pray for us.
San Lorenzo Ruiz, pray for us
San Pedro Calungsod, pray for us.
