UNIVERSITY OF SAINT LOUIS: YOUR SCHOOL

SAINT LOUIS GONZAGA
The School Patron Saint
(March 9, 1568 – June 21, 1591)

Louis (Luigi, Aloysius) Gonzaga was born in Northern Italy of a rich family of nobility and was educated at the princely court of the famous Medici in Florence. At the age of 14, he joined a royal suite traveling to Spain where he spent three years as a court page to James, son of King Philip II (after whom the Philippines was named).

As a young man he faced the dilemma whether to follow the excessive worldliness of the royal courts of his time, or to strive after higher values. He decided to become a priest. Although his mother was happy, his father vehemently objected since his entry in a top religious order involved the royal inheritance and nobility of his family. Louis renounced all his rights to the family title and properties and entered the Jesuit novitiate in 1585. He was a competent student and highly regarded for his virtues of charity, humility and chastity.

During the last year of his studies for the priesthood, a plague broke out in Rome. Louis offered himself for the service of the sick, and while caring for the victims, he himself contracted a malignant infection which caused his death after three months of intense suffering. Scarcely anything remained of his exhausted body except skin and bones, and cruel sores. Yet, he remained cheerful and patient to the end.

For his extra – ordinary signs of heroism in the love of God and fellowmen he was canonized in 1726, and three years later declared to be the heavenly patron of all Catholic youth, especially those engaged in studies.

Our institution, like many others all over the world, adopted St. Louis, this great young man, as patron and model for students.

The feast of St. Louis Gonzaga is celebrated on June 21.

HISTORY OF UNIVERSITY OF SAINT LOUIS

The University of Saint Louis traces its roots from the passion for education of Msgr. Constant Jurgens, CICM, D.D., a Dutch by nationality, was a CICM missionary, great educator, and then Bishop of the Diocese of Tuguegarao.

Pre-Louisian History

Cagayan Valley Atheneum. A few years before the outbreak of the Second World War, Msgr. Jurgens founded the Cagayan Valley Atheneum as a diocesan school for boys. Rev. Fr. Oscar Deltour, CICM, was its first rector. Cagayan Valley Atheneum stood from 1938 to 1946. It was set up at the compound of St. Peter's Cathedral. Later it was transferred to a different lot located in Ugac bought from the Tabacalera by Msgr. Jurgens with his own missionary fund.

Ateneo de Tuguegarao. The war destroyed the Cagayan Valley Atheneum buildings, and Msgr. Jurgens was confined at the concentration camp during the Japanese Occupation. Like many CICM Missionaries, Msgr. Jurgens had also suffered in concentration camps and in evacuation centers and came out a very sick man. He called on the Jesuit Fathers (Society of Jesus) to take over the administration of the school. It was agreed that he would transfer ownership of the land to the Jesuits provided that they would build therein a residence and school complete with equipment. The school was named Ateneo de Tuguegarao and offered high school and two college courses: Commerce and A.B. Pre-Law. In 1962, the Jesuit Fathers left Tuguegarao and closed the Ateneo de Tuguegarao.

Saint Louis College of Tuguegarao

On January 6, 1965, the Bishop of Tuguegarao, His Excellency Msgr. Teodulfo S. Domingo, wrote the Provincial Superior of the Congregation of the Immaculate Heart of Mary, the Very Rev. Charles Pieters and requested him to open a Catholic school for boys in Tuguegarao. The impetus of this request was the appeal of many Catholic parents for Catholic education for their boys in Tuguegarao.

With the approval of the CICM Superior General, Fr. Charles Pieters responded in January 1965 accepting the appeal. Preparations were made for the coming school year and a four-room emergency building was put up since at that time the students from Saint Paul College (SPC) were occupying the high school buildings of the Ateneo after SPC was gutted by fire on January 1965.

In June 1965, Saint Louis School opened its portals to 138 boys accommodated in two (2) sections for the first year and one section for the second year. Fr. George Hantson, CICM, was the first rector.

In 1968, its College department opened with four courses: B.S. Civil Engineering, B.S. Commerce, Liberal Arts, and Junior Secretarial Course with 236 students. That year then, the school was renamed Saint Louis College of Tuguegarao (SLCT). The first SLCT president was Rev. Fr. Paul de Bevere, CICM.

In 1971, its High School department offered its science curriculum and started admitting girls. In 1977, its Graduate School opened with Master in Public Administration.

In the years that followed, it opened new courses in the collegiate level: B.S. in Architecture, B.S. in Geodetic Engineering, B.S. in Electrical Engineering, B.S. in Electronics and Communications Engineering, B.S. in Computer Engineering, B.S. in Accountancy (separated from BS Commerce), Computer Secretarial Course, B.S. in Computer Science, Bachelor in Secondary Education, and Bachelor in Elementary Education.

Kinder I and II were opened in 1997. The Elementary Department started Grade I in 1998. True to its mission of providing the marginalized sector of the society an access to quality education, the school also opened in 1998 the Learning Center for Hearing-Impaired children, now called the Dinggin Ka Learning Center (DKLC), a school for speech and hearing-impaired pupils.

On April 1, 2002, USL formally opened its Center for Technical and Entrepreneurial Development with associate courses in Hotel and Restaurant Management, Network Technology, Computer Secretarial, Electrical, and Electronics Technology.

After a few decades, Saint Louis College of Tuguegarao became a college serving young people in the preparatory school, elementary school, secondary school, tertiary, and graduate school. The period 1998-2002 was devoted to the pursuance of a change of the school charter from a college to a university.

University of Saint Louis

On May 20, 2002, the Commission on Higher Education finally granted the school its new charter. Hence, the old Saint Louis College of Tuguegarao is now the University of Saint Louis. The installation of the first University President, Dr. Rosalinda P. Valdepeñas, who was at the helm of SLCT during the grant of the university status, was on August 8, 2002.

In that same year, prior to the grant of university status, SLCT was one of the first thirty (30) private higher education institutions (HEIs) in the Philippines granted full autonomy by the Commission on Higher Education from 2002-2007. This autonomous status was consistently maintained to date (as of 2019 edition of this manual).

During the period of the grant of full autonomy, other collegiate programs were offered which include Nursing (SY 2004-2005); Tourism and Information Science (SY 2007-2008); Hotel and Restaurant Management (SY 2009-2010); Library and Information Science and Interior Design (SY 2009-2010); Medical Laboratory Science (Medical Technology) and

Pharmacy (SY 2012-2013); and Management Accounting and Accounting Technology (SY 2014-2015).

April 2012 marked another milestone in the history of the University when the Federation of Accrediting Agencies of the Philippines (FAAP) granted Level IV Accredited Status to six (6) of the University's curricular programs: Accountancy, Business Administration, Civil Engineering, Liberal Arts, Elementary Teacher Education, and Secondary Teacher Education. USL is the first and only school in Region 02 granted such status and one of the very few in the entire country.

The K to 12 Basic Education Curriculum was implemented effective school year 2012-2013.

On May 2013, the High School Department was granted for the third time a five-year Level II Re-Accredited Status (Level II) from 2013-2018.

On May 2013, too, during the celebration of the 11th year of USL as a University, the USL Endowment Fund was launched. The fund drive aims to pool donations to support special scholarships and professorial chairs.

As a testimony of its long tradition of excellence and quality, the University was bestowed an International Platinum Award for Excellence and Business Prestige on May 26, 2014 in New York, USA.

On January 2015, the Level IV programs were granted Level IV Re-Accredited Status from 2015-2019, and the University was bestowed with the recognition of Institutional Accreditation from the Federation of Accrediting Agencies of the Philippines (FAAP), valid until 2019.

The year 2015 was indeed a most remarkable year for the University as it celebrated its 50th foundation. Among the major activities were the launching of commemorative stamps and the re-launching of the Endowment Fund drive.

The University of Saint Louis is a member of the CICM Philippines School Network (CICM-PSN) together with five other schools – Saint Louis University (Baguio City), Saint Louis College (San Fernando, La Union), Saint Louis College-Cebu (Mandaue City), Saint Mary's University (Bayombong), and Maryhill School of Theology (Quezon City). As in the other CICM-PSN member schools, the Office of the Vice President for Mission and Identity (VPMI) was established in USL in school year 2015-2016 with Rev. Fr. Thiago O. Silva as the first VP for Mission and Identity in USL.

In 2016, Level III Accredited Status was granted to the Electrical Engineering program (valid until 2019); Level II Accredited Status to the Information Technology and Computer Science programs (valid until 2020); and Level II Accredited Status to the Nursing program (valid until 2021). Also, in 2016, the school was re-granted its Autonomous Status (2016-2019) and was conferred the recognition as Center of Development in Information Technology (2016-2018).

School Year 2016-2017 was the first year of implementation of the Senior High School Grade 11 with the following track and strands: Academic Track – Accountancy, Business and Management (ABM Strand), Humanities and Social Sciences Strand (HUMSS Strand), and Science, Technology, Engineering and Mathematics (STEM Strand: Health Science and Non-Health Science).

On May 2017, the Elementary Department was granted Level II Accredited Status for the period 2017-2022.

DEVELOPMENT OF THE UNIVERSITY'S PHYSICAL PLANT

The past years have been witness to the tremendous development in the University's Physical Plant. The year 1965 saw the construction of a one-storey, four-room High School Building which was named as the Hantson Building. In 1968, what used to be the former San Jacinto Seminary was turned over to the College, which later became the Administration Building. In 1972, the old Ateneo High School building was renovated, and the Jesuit Fathers' quarters were converted into High School Library and Laboratories. In 1975, a four-room building was constructed as annex to the old High School building. In 1977, with the financial assistance of the Dutch Government, the CEBEMO, two buildings were constructed: Bishop Constant Jurgens Technical Building and the CEBEMO Shop Building. The year 1978 saw the construction of the CICM District House for the CICM Fathers. In 1979, a new two-storey, eight-room concrete building (Phase I) was constructed in the High School Department. Likewise, the Saint Aloysius Building was built in 1979.

Completed in 1980, the College gymnasium was constructed with recycled steel trusses acquired by Fr. James Ter Meer, CICM from the former Maryheights Seminary in Baguio City. In order to meet the increase in the enrolment of the College, in 1981, the old Hantson Building was demolished and on its site was a two-storey, eight-room building, later named as San Lorenzo Ruiz Building. In 1982, a new three-storey building was erected to house major administrative offices and more classrooms. This building was named the CICM Building in celebration of the 75th (Diamond) Jubilee of the CICM Missionaries in the Philippines. The year 1984 saw the completion of the Mary Immaculate Ladies Dormitory, and in 1988, the USL stadium.

The culminating activities and Eucharistic celebrations of the popular friendship seminars for employees and students back in 1997 to some years later were held at the open space near the CICM district house, giving the space its name as Friendship Park advocated by Rev. Fr. Renillo H. Sta. Ana, CICM, during his previous appointments in USL as a Chaplain, and which development he revived during his reign as University President of USL.

Theophile Verbist Building

Charles Pieters Building

Bishop Constant Jurgen's Building

The year 1998 marked the construction of the Theophile Verbist Building particularly of the first two floors followed by the construction of the third and fourth floors for classrooms in 1999. The building also housed computer laboratories, the Treasury and Accounting Department, the Office of the Registrar, the Office of the Chaplain, the canteen, a bookstore, printing shop, and function room on the ground and mezzanine floors.

In year 2000, the University acquired a 2,084 square-meter lot at the Lecaros Extension to become the first site for the now Dinggin Ka Learning Center. Same year saw the acquisition of a 5.4-hectare lot in the hills of Leonarda, Tuguegarao City to become an extension site for the fast growing Louisian family.

The school year 2000-2001 was marked by the construction of the main High School building (Phase 3) which since then on has been housing the administrative offices for the High School Department and several classrooms. The three major buildings of the High School Department are linked together to form the so-called Charles Pieters Building.

In the summer of 2001, major movements in the facilities were undertaken. The three higher floors of the Theophile Verbist building took a major renovation to accommodate the new, modern and fully air-conditioned Learning Resource Center (Library) of the College Department. That summer, too, marked the renovation of the Bishop Constant Jurgens Building to later become the Preparatory/ Grade School Building.

The now Good Shepherd Chapel was originally the chapel built by the Jesuit missionaries at the time of the Ateneo de Tuguegarao. It took a major renovation in year 2001 with a 180-degree reorientation for the Sanctuary (originally on the west) and the main chapel door (originally on the east)The reorientation paved the way in 2008 to 2009 for the construction of the Pastoral Center to house the Office of the Chaplain, Campus Ministry Office and a Pastoral Hall. The family of the late Fr. Clement Daelman, CICM, donated the image of the Good Shepherd in 2010 as a sign of pastoral care for the Louisian community.

zWith the offering of new curricular programs, buildings were put up at the Extension campus along Lecaros Street which is adjacent to the main campus. First was the Pope John Paul II Building, constructed in 2004, to cater to the needs of the University's Nursing program. It houses the Nursing laboratories, Dean's Office and classrooms. It is now named as Saint John Paul II Building. Second was the Tjolle International Center in 2005 which serves as the hotel laboratory for the Hotel and Restaurant Management program.

To expand the Leonarda expansion site, the University purchased in 2008 an additional lot with an area of 4.6 hectares adjoining the 5.4 hectares purchased in year 2000, thus the 10-hectare area of the entire soon- to- be USL-Leonarda Campus.

In the year 2011, a new High School audio-visual room with a 150 seating- capacity was added to the structure of the Charles Pieters Building. It was named Bulwagang Pacifico Casem in honor of Mr. Pacifico Casem, a former High School Principal who also became a President of the then Saint Louis College of Tuguegarao. The Bulwagang Teodulfo Domingo

(in honor of former Bishop of the Diocese of Tuguegarao, Msgr. Teodulfo Domingo) was earlier built as part of the Charles Pieters Building, and is used for seminars, conferences, and other related events.

Immaculate Heart of Mary Building

The M Building was put up in 2012 to house the laboratories of the Pharmacy and Medical Laboratory Science (Medical Technology) programs, additional laboratories for the Hotel and Restaurant Management program, faculty rooms, and another dean's office. It is named Immaculate Heart of Mary Building.

With the continuing need for classrooms, better faculty rooms, and audio-visual rooms, the new Saint Lorenzo Building was blessed and inaugurated insummer 2014.

P Building

In year 2014, two other extension buildings were constructed for the JHS to address the increasing number of enrollment of the High School department as well as to meet the Technology and Livelihood Education (TLE) laboratories required by the Kto12 Enhanced Basic Education Curriculum. In the same year, the Paul de Bevere Building on whose site was a multi-purpose shed then, was constructed and now houses the Student Affairs and Services Office (SASO) and the Supreme Student Council and The Louisian Courier offices.

Paul de Bevere Building

In school year 2014-2015, the University acquired the USL Main Campus lot from the of Tuguegarao, USL now having full ownership of the 4.2-hectare lot. Signing of the deed of absolute sale and full payment of the lot were done on November 17, 2014.

Infrastructure projects for the Golden Jubilee celebration in February 2015 included face-lifting of the main campus facade, installation of turnstiles at the main entrance gate, renovation of the open stage with installation of state-of-the-art sound system, improvement of the Sports Field, and the construction of the Wall of Fame.

Fr. Clement Daelman Building

Saint Lorenzo Ruiz Building

With the increasing University need for spaces for sports, cultural, and similar activities, the University stadium undertook expansion in January 2016. To house the Senior High School, an academic building was constructed in time for its opening for SY 2016- 2017 in August 2016. At the site where it now stands was once the Mary Immaculate Ladies Dormitory, which was demolished. It is named Clement Daelman Building.

In SY 2016-2017, a replicate building of the first phase of the Saint Lorenzo Ruiz Building was constructed. It stands on the location of the demolished old San Lorenzo Building. It houses college classrooms, facilities, and administrative offices.

San Jacinto Building

The San Jacinto Building, which serves as the University historical landmark, was renovated in SY 2017-2018, maintaining the architectural design of the old San Jacinto Seminary.

With the aim to help in environmental protection and promote efficient energy consumption in the University, USL inaugurated its photovoltaic or solar power system in February 2018.

In SY 2018-2019, the former Student Activity Center was demolished and reconstructed into a three-level structure, named as Bishop Wenceslao S. Padilla Learning and Mission Hall, to address the growing need for spaces for learning and mission activities. A similar structure was constructed for same purpose between the Theophile Verbist Building and the Aloysius Gonzaga Building and is named Bishop Carlito J. Cenzon Learning and Mission Hall.

As USL bursts forth into becoming a global university, it envisions future expansion in both facilities and space; thus, the Leonarda Campus Development Plan, to be realized at the University's property at Leonarda, Tuguegarao City, beholds the dream that all Louisian stakeholders can look forward to.

Verily, the University of Saint Louis is known to be one of the most outstanding educational institutions in the Region and in the entire country offering quality and relevant Catholic education. Its graduates have become active partners of the society as many of them are now occupying key positions in government and private institutions, business and industry,

and non-government organizations. The years have been witness to successful national board passers and topnotchers from among its graduates. The University of Saint Louis has been popularly recognized as the SCHOOL OF TOPNOTCHERS in the Cagayan Valley Region.

THE SCHOOL EMBLEM

The herald of the USL emblem blends the SWORD and the SHIELD, symbolizing the virtue of fortitude. The sword thrusts forward toward individual and community development, the goals of education.
The LILY, symbolizing the virtue of integrity, and the CROSS, representing Faith in the Lord Jesus Christ, are wielded by the shield.

The prime products of Cagayan, CORN and RICE (stalks), depict USL's commitment to contribute to the development of the Cagayan Province and Cagayan Valley Region.

The colors Blue and White, the colors of the Blessed Virgin Mary, signify the love and life of a dedicated person close to Christ. The color yellow symbolizes the golden harvest of Cagayan's prime products.

The golden yellow color which was seen in old USL logo was adopted officially in 2015 to mark the golden jubilee of the University symbolizing the rich harvests of USL's achievements through the years.

The letters C.I.C.M. in the SHIELD is a Latin initial for C***ongregatio Immaculati Cordis Mariae***, or in English, ***Congregation of the Immaculate Heart of Mary***. CICM is an international Catholic religious congregation that founded University of Saint Louis in keeping with her educational mission and apostolate.

Thus, USL, a community of learners seeking to be leaders of human progress, provides not only an academic but also a Christian atmosphere where values are developed. This atmosphere makes learning a process of building a human person dedicated towards the service of community, country and God—the embodiment of the USL motto: WISDOM BUILDS.

THE MOTTO: WISDOM BUILDS (Sapientia Aedificat)

The fear of God is the beginning of Wisdom. The University of Saint Louis, as a Catholic educational institution embodies the conviction that wisdom, borne out of genuine reverence and love for God, builds up our persons. (We have an expression "God-fearing person" which means that this person will not do anything to offend God and one's neighbor, will not do anything against one's own conscience.) Expressing it in a positive way, a God-fearing person does God's will, and contributes to the well-being of the whole community. This is Wisdom in the Old Testament – Solomon's search for the will of God, incarnates in the person of Jesus of Nazareth, the fulfillment of God's will and revelation in the context of the Covenant community.

Thus, in today's terms, "Wisdom Builds" means that the attitude and the actions that express the obedience to God and the love and compassion toward one's neighbors will contribute to the betterment of one's self and one's community. Every Louisian built in wisdom is called to become builder of the Church and Society.

CHAPTER II

1. The class period is the time prescribed for lecture or laboratory classes.
2. The class period begins and ends with a prayer led by the faculty member or by a student.
3. The class period is to be used fully for academic instruction. Proper utilization of the class is one proof of effective teaching. The instructor is expected to be in the classroom when the buzzer rings. Having all educational instructional aids at hand, he/she begins his class promptly and teaches for the whole duration of the class period. Should the period last for three or more hours, the instructor may give a fifteen-minute break at the middle of the period.
4. Any required research work should be as an assignment and not to be done within class period except for regular Research and research related classes.
5. A faculty member dismisses her/his class five (5) minutes before the time. Except for reasons of emergency, a faculty may not dismiss her/his students before the first buzzer.

7. No children of faculty members should be brought to the classroom or any meeting, in-service training, etc., as this causes disturbance and inconvenience.

B. CLASSROOM TEACHING AND CLASS MANAGEMENT

1. Education is the process of finding and learning the meaning and application of man's relation to persons and things. For the educational process, no uniform teaching method can be prescribed. Teachers use methods or strategies which create an interaction between the teacher and the students in making teaching dialogic.
2. Mastery of the subject matter is a pre-requisite to good teaching.
3. Use of the 21st century methods and techniques for instruction is a great aid to success in teaching and learning.
4. Adjustment of the method of teaching to the level of the majority of the students is a sound educational practice. Therefore, the teacher must be able to adapt his teaching style to the students' interests and needs.
    i. A faculty member realizes that students' potentialities are greater than what can be perceived; therefore, he continually uses incentives

and motivations to capture their interests and capabilities for creativity.

ii. A faculty member faced with an average or below average class seeks to make the students achieve maximal learning through but not limited to, such means as opportunity sessions, frequent quizzes, assignments, use of textbooks and the like.

iii. Field trips and seminars prescribed in the curriculum or course are conducted during weekends as a general rule to prevent the students from absenting themselves from their academic classes.

5. The University generally observes class size of 45 for lecture and required number of students in the laboratory based on the corresponding CHED Policies Standards and Guidelines (PSG) and TESDA Training Regulations. Any oversized class must be reported by the faculty member to the Academic Dean at the beginning of the term, so that necessary steps can be taken to remedy the situation.
6. For the purpose of exploration and as a basis for teaching, a faculty member checks at the beginning of the semester on whether the students have taken their pre-requisite subjects of the course. Problems in connection with the pre-requisite subjects are to be referred to the Academic Dean of the School/College concerned. Faculty members must advise students whose names are not in the class list to complete their enrolment.
7. At the beginning of the semester, faculty members orient the students of the class policies, provisions of the Student Handbook, the general grading policy, causes of failures, remedial measures, requirements of the course, good study habits and use of the library.
8. Based on the class list received from the University Registrar, the faculty member checks whether the student is officially enrolled in his class after which he then distributes the class cards. Only students whose names are found in the class list should be asked to fill out class cards.
9. Under no circumstances shall the faculty member allow any student to hold the class cards, call the roll, or perform other functions that pertain to the faculty member alone.
10. Faculty members are required to use a prescribed seat plan for all classes. These seat plans are required during clearance with the office of the Vice-President for Academics.
11. Smoking, eating, chewing and other distracting activities are not allowed in the classrooms.
12. The faculty member must erase the blackboard/whiteboard after each class for use by the next class. The Faculty member should see to it that chairs are placed in proper order before leaving the classroom.

iii. In order to minimize the financial burden to parents, field trips outside the region should be limited to at most two days exclusive of travel time.

iv. Utmost diligence and care should be exercised by the instructors/chaperones accompanying the students/pupils on a field trip to avoid untoward incidents because the parents' waiver does not absolve them of responsibility for negligence. In case the students will be unable to attend due to valid reasons, an alternative activity must be provided them.

F. EXAMINATION AND GRADES

1. The examinations hereunder referred to are the Preliminary, Mid-term and Final Examinations.
2. No student may be granted any exemption from any examination. Oral examinations in lieu of written examinations are not allowed unless approved by Vice-President for Academics.

5. The schedule of examinations, as prepared by the Registrar, should be strictly followed to prevent inconveniences on the part of students in settling their financial obligations. Any change in the scheduled time of examinations should get the prior approval of the Dean, and properly coordinated with the Registrar.
6. A special examination given for circumstances beyond the control of the student will be given only with the written permission of the Academic Dean. This special prelim or midterm tests must be taken within the week after the students reported back to school.
7. Faculty members are requested to submit their approved test questions to the Dean's Office at least seven (7) working days before the first examination day.

9. The printing of test questions that were submitted late shall be the responsibility of the faculty member who shall pay in cash or through salary deduction the cost of reproduction. However, to ensure the integrity of the examination, the printing will be done at the University Printing Office with the proper endorsement of the Academic Dean.

14. The faculty must promote the observance of honesty and integrity during examinations and quizzes.
15. As a general policy, students who cheat during quizzes and major examinations get zero automatically.
16. During major examinations, proctors are assigned by the Academic Deans from among the faculty members. Request in writing for swapping of proctor assignments must be approved by the Academic Dean. Proctors check the examination permits and attendance of students. The proctor then submits the attendance sheet to the teacher.

G. ALLOWABLE PERCENTAGE OF FAILURES IN A CLASS

1. The failure of more than 25% of a class in the final examination ratings is an indication that the average student has not been taken into consideration.
2. If more than 25% of the class failed, the faculty member concerned must explain in writing the high percentage of failure and submits the following documents.
    i. Class record indicating the computation of the class standing, that is, number of quizzes, seat works, assignments, exercises, etc. given for one grading period.

H. GRADING SYSTEM

The University observes in general the following manner of computing grades. A faculty member informs his students about the grading system at the start of semester and should inform his students on how the grades are computed in every term. He should give them their preliminary and mid-term grades either publicly or privately, as prudence may dictate.

a. Preliminary Raw Score:

b. Moving Midterm Raw Score (MMRS):
Class standing (max of 50) plus Midterm Exam (max of 50)

c. Midterm Raw Score (MRS)

$$\frac{\text{Preliminary Raw Score} + (2 \times \text{Moving Midterm Raw Score})}{3}$$

d. Moving Final Raw Score (MFRS)
Class standing (max of 50) plus Final Exam (max of 50)

e. Final Raw Score:

$$\frac{\text{Midterm Raw Score} + (2 \times \text{Moving Final Raw Score})}{3}$$

f. The Class Standing

The class standing may be allotted exactly 50 points which includes the following: recitations, quizzes, assignments, seat works, themes, experiments, term papers, laboratory works and the like. The University allows modification of the method of computing grades which is necessary to suit certain subjects (like Research, PE, NSTP and Internship).

I. SPECIAL QUIZ

A Special quiz is given to a student who failed to take such with valid reasons (e.g. health condition, death/burial of immediate family member.

For duly approved official business, the student should be given an option to choose the highest score attained by any member of the class or to take the special quiz or learning activities.

1. The grade of "conditioned" or "incomplete" is not allowed (Manual of Regulations for Private School, 8th Edition, and Article XV Sec. 80a). The instructor must warn the student to submit all requirements before the final exam. Failure to meet the deadline means zero (0) for that assignment, term paper or project for the final grading. No final grade of 74% or 73% should be given; it should either be 75% (passed) or 70% (failed).
2. Students who do not take the test, prelim or mid-term without valid reason will be given zero (0) for that exam.
3. Students who fail to take the final examination are marked "NFE". They have one year to complete or "remove" the "NFE". If the subject with NFE is a pre-requisite, then the student should take the final test before he enrolls the higher subject.
4. The mark "withdrawn with permission" (WP) shall be given to students who withdrew their enrollment from the course or subject with the approval of the Academic Dean, provided the withdrawal is made anytime from the second week of the semester and before the mid-term examinations. Further, the mark WP is also given if a student drops because he is employed within the semester.

B. LOUISIAN POSITIVE DISCIPLINE FRAMEWORK (LPDF)

Louisians always remain to be at the center of the educative process of the University. The University commits to gird the Louisians with the competencies to have better chances to compete and be comparable with other graduates/professionals not only in the Philippines but globally. While academic excellence is the University's stronghold, it is equally imperative that students are developed and molded with the right precepts and values deeply rooted in their Christian Faith and CICM charism towards whole person education. Such formation can be further reinforced through the positive discipline framework. It ensures that Louisians are formed with values of integrity, prudence and decency towards their dealings with other Louisians, their teachers and administrators, the community among others.

The LPDF serves as the guiding light in directing policies, priorities and programs to ensure that students are given positive and better outlook that life is indeed full of choices, and for each choice, there are always contrasting and contradicting consequences. Therefore, for each action, the Louisian must understand and accept the repercussions. However, the framework is not absolutely punitive, but gives an opportunity for the student to redirect his energies and motivations towards changing his actions and behaviors towards what is good and beautiful.

1. PRINCIPLES

The framework places utmost VALUE to discipline, as an important attribute of a Louisian. The value it places- the PRICE it upholds on discipline is founded on following principles:

1.1. **Proactive** – The University is cognizant of the ever-dynamic social context of every Louisian, and how this context potentially forms one's behavior and outlook. The framework actively understands the context of the Louisians and takes initiative of coming up with series of activities, and strategies on how the Louisian can acquire positive values and discipline amidst the changing social environment, not being swayed by negativities but able to cope with the changes and demonstrate better and more admirable values and attitudes.

1.2. **Restorative** – The University takes inventory of its policies and actions and rationalizes on how to provide opportunities for students to cope positively with any misbehavior/infraction. While University policies may be enforced, it places human touch to the policy by caring for Louisians to come up with courses of actions to evaluate their thought processes, undergo series of behavior modification and develop a more desirable coping mechanism and pleasant values.

1.3. **Inclusive** –The framework ensures that every Louisian, regardless of his/her socio-cultural demographics, academic performance, personal traits and individualities, will be provided with opportunities to hone their values, behaviors and attitudes consistent with the precepts of positive discipline framework. It does not discriminate or give preferential treatment to others, but ensures that everyone will participate in the entire spectrum of advocating and developing students consistent within acceptable terms duly cited in the Student Handbook.

1.4. **Collaborative** – The positive discipline framework will not only be advocated by the Student Affairs Office, but will be cascaded both to the learning process inside the classroom through teachers and professors and to the different offices. When all stakeholders in the University uphold and apply the positive discipline framework, it reinforces its application from THEORY to PRACTICE. The collaboration of the different stakeholders in the University facilitates the mind shift to positive discipline.

1.5. **Encouraging** – The framework gives Louisians better appreciation of how the University values them as persons. While they accept that each action is meted with a consequence, they have a positive outlook in life that indeed they have opportunities to change and redirect their actions and become

better and more mature individuals. It molds the minds of the Louisians that failure may be inevitable, but what is more important is that one picks the pieces together, develop better coping mechanisms and deeper faith and dependence to their Christian faith.

2. APPROACHES

To ensure that positive discipline framework takes off from the ground and be translated into actions, the Office of Student Affairs & Services commits to be guided by the following approaches:

2.1. **Educate.** Positive discipline framework is absorbed through Louisians' continuous exposure to learning. Louisians will be provided with various learning opportunities through which they will acquire positive values, better coping mechanisms among others. Topics of high interest to them will also be re-aligned with the framework so this will be continuously reinforced as a learning insight. Strategies under this include the following:

2.1.1. Orientation and Reorientation Programs
2.1.2. Teambuilding and Leadership Training
2.1.3. Seminars and In-Service Training
2.1.4. Information Dissemination
2.1.5. Organizational Assemblies

2.2. **Engage.** The Office of Student Affairs & Services will provide diversity of programs, activities and services through which students can actively participate. Louisians will be given variety of choice and choose activities that perfectly match their interests, abilities and commitments. Various opportunities must also be made available where they can showcase their talents and be recognized that they are good at it. Strategies in this approach are the following:

2.2.1. Talents, Skills & Sports Development
2.2.2. Community Involvement & Advocacy
2.2.3. Organization Fair & Activities
2.2.4. Campus Ministry Participation
2.2.5. Active Learning

2.3. **Empower.** Variety of activities and services may also include recognition of distinct and exemplary accomplishments/achievement of Louisians, development of pool of Louisians who serve as leaders in different endeavors and who will also be the university's partners for discipline and formation among others. Empowerment may also include providing opportunities for students to take part in the process of planning for the welfare of students, policy-making and implementing. Providing voices

ensures that their welfare is represented and these are integrated into policies and programs thus increasing their engagement and appreciation on how their voices are valued and given importance. Strategies for this approach are the following:

2.3.1. Celebration of Achievement (Non- Academic Awards) & Failure (Growth Sessions)
2.3.2. Partners for Discipline & Formation
2.3.3. Participation in Policy Making
2.3.4. Advising & Counseling
2.3.5. Dialogues

2.4. **Enforce.** Positive discipline framework does not disregard consequences, but will be further reinforced. However, within the framework, Louisians are given opportunity to go through restorative process of redirecting their energies and given opportunities to improve themselves and become better individuals. Strategies include the following:

2.4.1. 24- Day Major Case Resolution
2.4.2. 24- Hour Minor Case Resolution
2.4.3. Disciplinary Interventions
2.4.4. Referrals & Consultations
2.4.5. Monitoring Strategies

The LPDF will be embedded into the lives and formation of Louisians. It gradually grows through time and practice, strengthening the character, commitment and integrity amongst Louisians. With the shared participation of all stakeholders- University administrators, teachers, non-teaching personnel, students, parents and the community, Louisians slowly mature to individuals that confidently handle themselves in various aspects of their lives.

Every Louisian slowly pops himself/ herself from the ground, weathering all the odds to grow strong and sturdy. Eventually, he/she will blossom into a beautiful flower, every petal signifying how he/she is honed– proactively, restoratively, inclusively, collaboratively and encouragingly. As he/she is born out of integrity, prudence and excellence so he/she is transformed into a wonderful flower for the public to be recognize, emulate and respect. The LPDF undoubtedly radiates to the paths every Louisian will take and it will eventually show how CICM values and charism has been inculcated into the being of every Louisian. The end-result becomes the positive impact of the commitment of the University in the holistic development of every Louisian.

Together, Louisians BLOOM!

3. With the agreement of both parties, the receiving officer and the Vice President for Administration may attempt to resolve the complaint/reportthrough alternative dispute resolution processes (e.g., mediation or conciliation). If the parties agree to amicably settle the matter, their agreement must be reduced into writing. 4. Within five days from receipt of the directive from the President to conduct fact-finding investigation, the Committee on Discipline shall schedule an initial conference with the complainant/s and the respondents to apprise them of the basic procedural rules for the conduct of the investigation.
5. On the same occasion, the Committee shall inform in writing the complainant and the respondent of the time, date and venue of the formal investigation. The interval between the initial conference and the formal investigation should not be less than five days to enable the complainant and respondent to prepare.
6. During the formal investigation, the following procedural rules shall be observed:
    a. The factual issues to be resolved by the Committee shall only be limited to those which were alleged in the Complaint. f. It is the duty of the parties to submit the list of witnesses to the Committee. Thereafter, it becomes the duty of the Committee to notify the witnesses on the date of the reception of their statement. However, because it is important that every effort be made to keep the incident confidential, the Committee shall exercise its sound discretion in determining which witnesses are indeed necessary to the investigation;
g. The Committee, on its own, may call on other resource persons for additional information or verify information from files available in different offices of the University;

The duly received written warning shall be placed in the file of the personnel in the HRMO or in the student's file in the office of the DSAS. On the other hand, if the President opts to dismiss the case, the Vice President for Administration shall also be directed to prepare the corresponding communication to the parties.

The decision of the Committee whether for or against the respondent, may be appealed by either party to the Office of the University President. The decision of the University President shall be final and executory.

Preventive Suspension

If the Committee on Personnel Discipline finds a strong probability that the respondent might exert undue influence or pressure upon the complainant and/or the witnesses, or tamper on documents or evidence which are accessible to him through his office, it shall recommend to the University President that the respondent be placed under preventive suspension. If the respondent is placed under preventive suspension, it shall be for a period not exceeding 30 days.

During the period of preventive suspension, the salary and other benefits of the respondent-personnel shall be withheld and he shall be barred from performing his duties and responsibilities. APPENDIX H
GUIDELINES ON SUSPENSION OF CLASSES DUE TO INCLEMENT WEATHER

The University of Saint Louis shall follow the guidelines on the suspension of classes due to inclement weather issued by the Department of Education (DepEd Order No. 43, series of 2012) for the Elementary Department and High School Department, and the Commission on Higher Education (CHED M.O. 34, series of 2010) for the college and graduate school.

I. Automatic Suspension of Work and Classes

The automatic suspension of work and classes due to inclement weather will be based on the following typhoon signal warnings from the Philippine Atmospheric Geophysical and Astronomical Services Administration (PAGASA) and DOST as may be announced through the national televisions and other local media networks:

Typhoon Signal # 1: NO CLASSES IN PREP-KINDER
Typhoon Signal # 2: NO CLASSES IN ELEMENTARY AND HIGH SCHOOL LEVELS
Typhoon Signal # 3: NO CLASSES IN ALL LEVELS
Typhoon Signal # 4: SUSPENSION OF ALL CLASSES AND OFFICE WORKS

When classes are suspended due to storm signal number 1 or 2, the faculty members of the levels concerned are not required to report for work. However, Principals and Assistant Principals and office personnel in the Department are expected to report for work.

II. Mid-day Suspension of Classes

In case of mid-day cancellation of classes, elementary pupils will be allowed to leave the campus only when their fetchers arrive. Faculty members for both departments will be required to stay until advised by the Principal to leave when pupils and students have been all sent home and classrooms and faculty rooms are secured.

Cancellation of classes will apply for the entire day, even when the storm signal warning is lifted.

III. **Localized Cancellation of Work and Classes**

As stated in guidelines issued through Executive Order No. 66 s.2012:

"In the absence of typhoon signal warnings from PAGASA, localized cancellation/suspension of classes in both public and private schools... may be implemented by the local chief executives in their capacity as chairpersons of the Local Disaster Risk Reduction and Management Council." Any decision to cancel or suspend classes must come from the local government; however, a school head may also cancel or

suspend classes in cases where urgent action is needed to prevent loss of life or bodily harm."

Parents are advised to monitor media advisories coming from government agencies such as the PAGASA, Local Government Unit/Local Disaster Risk Reduction and Management (DRRM) Council, and the Office of the Governor or City Mayor.

FOR THE ABOVE CASES, ANNOUNCEMENT FROM THE SCHOOL IS NOT REQUIRED AS THE ABOVE CONDITIONS ARE FOR IMMEDIATE COMPLIANCE OF CONCERNED LEVEL IN ANY SCHOOL.

Students who are not able to report for school will be required to present an excuse letter upon return to class. This will alert the Prefects of Discipline/Dean of Students Affairs & Services regarding the reason for their absence for appropriate consideration.

IV. Parents' Discretion

Consistent with the DepEd guidelines, the school will also rely on the discretion of parents to decide if their child/children will attend class.

"The DepEd still maintains that parents have the ultimate responsibility of determining whether their children should go to school, even if no order for cancellation/suspension of classes has been issued, if they feel that traveling to or from school will place their children at risk."

V. For employees affected by floods or strong winds or road problems, the policy on emergency or personal leave will apply.

VI. Announcements (only for emergency cases)

Text messaging through VP's, Deans, Principals, Heads of Offices and Department Heads only in cases when USL, through the Office of the President, decides to cancel classes/work independently. The information shall be released not later than 6:30 A.M.

As a general guideline, it should be presumed that the absence of any announcement on suspension of classes by government agencies or by the school means that there will be classes and office work.

APPENDIX I

The Philippine Government recognizes the complimentary roles of public and private higher education institutions (HEIs) and shall exercise reasonable supervision and regulation thereof. Thus, all HEIs are enjoined to include in their student's handbook the conduct of mandatory random drug testing of students, with notice to the parents. Section 2. The State recognizes the primary responsibility of the family and the complimentary role of the educational institutions and parents for the education and awareness of its members on the ill-effects of dangerous drugs;

2.1. It is a government policy to foster a spirit of shared purposes and cooperation among the members and elements of the educational community and between the community and other sectors of society at

all times. Only in such atmosphere can the true goals and objectives of education be fulfilled.

2.2. The Commission on Higher Education (CHED), as part of its mandate, has the duty to continuously monitor the effectiveness of the dangerous drug abuse prevention program through their respective regional/field offices and may enlist the assistance of any government agency or instrumentality to carry out the objectives of the program.

In keeping with the dangerous drug abuse prevention program of the government, the Local Government Units (LGUs), the Philippine National Police (PNP), or any authorized law enforcement agency may carry out any legitimate drug-related operation within the school premises, provided that the same shall be coordinated to the concerned HEIs prior to the conduct thereof.

2.5. The conduct of random drug testing of students in tertiary schools is mandatory pursuant to Section 36(c) of RA 9165.

The drug test results shall be treated with utmost confidentiality and cannot be used in any criminal proceedings.

RULE III

3.1 promote a "drug-free" campus and further the legitimate interest of the government in preventing and deterring dangerous drug use among the youth;

3.2 instill in the minds of the students that dangerous drugs not only interfere in their ability to learn but also disrupt the teaching environment;

THE LOUISIAN PRAYER

O God, wellspring of goodness and blessings,
we give you thanks and praise as one Louisian community.
The graces You incessantly grant upon us
and Your divine providence have sustained our beloved University
throughout the years of mission and excellence.

Having been founded by the Congregation of the Immaculate Heart of Mary, we pray that You keep us committed and dedicated to our mission and identity to serve the Church and the society as we become living witnesses to the Gospel values proclaimed by Jesus. For if we are steadfast in our good and beautiful mission, our works will bring success not only to ourselves but also to those whom we are bound to love and serve.

Inspired by St. Louis our Patron Saint, who was filled with a noble spirit that stirred him to love You above all things, may we also live believing that we are born for a greater purpose and mission as we dwell in Your presence all the days of our life.

Grant all these supplications through the intercession
of Mother Mary and through Christ our Lord.

Amen.

USL GOLDEN JUBILEE PRAYER

Ever gracious God,
With gratitude in our hearts, we express our joys and jubilation for fifty years of USL's felt presence in the Philippines.

In the words of Theophile Verbist, the CICM Founder- Nothing is impossible when done with love, and one with our CICM fathers and brothers, we pray that our mission to help transform society with holistic education will forever succeed even to higher heights for the building of persons and communities, locally and globally. This we will do by living up to the ideals of our founders to love and to serve the marginalized and underprivileged sectors of the society.

As we reminisce the fifty years of meaningful existence, we recall with fondness the humble beginnings of the then Saint Louis School for Boys into becoming a stalwart of education as University of Saint Louis Tuguegarao. Fifty years of meaningful existence has been challenging, yet we survived because of your unceasing blessing to our beloved University, for which we are forever grateful.

May our Blessed Mother, the patroness of CICM, intercede for all of us as we pledge once more to live by the USL Values of Christian Living, Excellence, Professional Responsibility, Committed Social Awareness and Involvement, and Innovation, Creativity and Agility.

Finally, may this joyous occasion unite us as one family for renewed strength in the service and mission of quality education, and our vision of becoming a globally competent Catholic University. In Jesus' Name we pray. Amen

That is why we are so proud
We'll always stand in defense of it
For it makes us brave and fit.

CHORUS:
Training our body and mind
That in this school we find
Bright future smiles on us;
Let's be ready, thus
We'll deserve well of our land
Go ever hand in hand
For God and Country's sake
this is the PLEDGE we make.
